EXTRAORDINARY PEOPLE, EXTRAORDINARY NEWS

Dear Gentle Reader,

The only thing I adore more than high fashion is a high profile. And both of these come together in the lovely form of our resident, Rita. Rita was a well known fashion model for many years! A favored mannequin of the modeling world, she was admired for her effortless grace and beauty.

Speaking of *Rumours* (the legendary Fleetwood Mac album from the 70s), it's rumored that our very own Danny Levitt taught Lindsey Buckingham the alternating thumb bass style made famous in the hit *Rumours* song, *Never Going Back Again*, when they both worked together as staff banjo and guitar players at the same recording studio.

EMPLOYEE OF THE MONTH SANTIAGO F. Cook

Santiago is our very dedicated, funny and loving cook. He makes sure that our residents are happily fed here at City View. He continues to show his dedication each and every day with his loving smile and cheerful laughter.

Thank you, Santiago, for all of your hard work and dedication. We truly do appreciate you (and all the delicious meals you make)!

MORNING HIGH TEA NATIONAL GOSSIP DAY

SATURDAY, AUGUST 6 AT 9:30 AM

Celebrate National Gossip Day properly, with a delicious *cuppa* (that's slang for "cup of tea") and some yummy breakfast goodies! Let's drink to this special day of Gossip in true Bridgerton style - on the Rooftop!

August 6, 1881, was the birthday of celebrated and syndicated Hollywood gossip columnist Louella Parsons. Her first movie column, the first of its kind anywhere in the country, debuted in 1914 in the *Chicago Record-Herald*. William Randolph Hearst bought the paper in 1918, and didn't care for the column, so he shut it down. Parsons then moved to New York, and brought back the movie column in the *New York Morning Telegraph*; however, Hearst began to warm up to her work (after championing Hearst's mistress Marion Davies), and she joined one of his newspapers, the *New York American*, in 1922.

After a bout with tuberculosis in 1925 that almost claimed her life, she moved to Beverly Hills, where she unofficially became the "Queen of Hollywood gossip" until her nemesis and fierce rival, Hedda Hopper, arrived in town. Parson's writing style was more chatty, often described as more "sweetness and light" or "goosey", whereas Hopper's style took on a more crass tone.

Parsons considered the biggest scoop of her career to be the divorce of Douglas Fairbanks Sr. and Mary Pickford who were the most famous couple in Hollywood at the time.

A MORNING INSPIRATION ABSTRACT PAINTING

SATURDAY, 8/13 9:30 AM

Start the day off with a blast of creativity, and put forth your best Kandinsky or Jackson Pollack!

BEAUTIFY YOUR OWN SUCCULENT FLOWER POT

SUNDAY, 8/07 AT 3:30 PM

In keeping with our exploration of the Western US, decorate your terra cotta clay pot with whatever inspires you most, and then plant it with a cacti plant.

Remember, cactus need a minimum of 6 hours a day of sun, of which we get plenty of here in LA!

DeHoven Director of the Month Tea Risely

The results are in, no appeals have been submitted, it's a sure thing! This month's recipient of this prestigious award goes to:

T- enacious
E-nergetic
E-mpathetic
A-ttentive

Tea, your name befits you. With your Tenacious drive to fill our communities and your Energetic attitude, you bring positivity to those around you. Families and residents can attest to how Empathetic & Attentive you are to ensure that you recognize our residents' true needs, even when sometimes it may be hard for them to explain exactly what they are looking for.

We are honored to have Tea as part of the DeHoven family and are extremely proud of her accomplishments. She truly deserves to be this month's recipient of the 'Dove Award'.

Congratulations are in order for Tea and may we be blessed with many more successful years together!

PERSEIDS METEOR SHOWER
EDUCATION HOUR

FRIDAY, AUGUST 12 AT 11:00 AM

The Perseids meteor shower is associated with the comet Swift-Tuttle. The meteors really are made of tiny space debris from the Swift-Tuttle, and are one of the brighter meteor showers of the year. They are called the “Perseids” because the radiant point from which they appear lies in the constellation Perseus. Astronomers and stargazers alike both flock to watch this particular meteor shower because at its peak (between August 9 and 13) from a dark place, you can see 60 to 100 meteors within an hour from a dark place.

Learn all about these colorful meteors that are perhaps the most beloved meteor shower in the Northern Hemisphere.
